

New Code Maps

How to use this information

The orange map is the recorded title next to the corresponding EA code. This title should be consistent in all records.

The green map lists the EA codes number order, and each line shows the old codes that are covered by each new EA code. This is most useful when you have the new EA code and need to check what it replaces.

The blue map lists old codes and shows which EA codes replace them. This is most useful when you have the old code and need to know which EA code to use instead.

Where there is more than one EA code to an old code, auditors will get all new EA codes as qualified competencies. Where a client is given more than one EA code, a change may be required to ensure the correct sector is attributed.

Note: This guide is to be used for existing clients needing to be mapped to the new EA Codes. It is crucial that, even though this is ongoing and a part of business as usual, Auditors along with Client Operations will confirm by the next upcoming visit that clients have indeed been allocated the correct codes, since this mapping has been implemented as simplified as possible.

FAQ

Q: Are we keeping risk and complexity levels?

A: Yes. However, these are noted in the Risk and Complexity fields against each opportunity and are no longer directly linked to codes. It is still very important to complete the Risk and Complexity levels as usual.

Q: What if a client is given two or more codes for different sectors?

A: If we take the example of LR code 107902 Utilities - high complexity, this is replaced by three new EA codes specifying Gas, Water and Electricity Supply.

An auditor would obtain all three EA codes as qualified competencies, but Sales would need to choose the appropriate EA code(s) which specifically relate to the client.

New Code Number	Name
EA01	Agriculture, forestry and fishing
EA02	Mining and quarrying
EA03	Food products, beverages and tobacco
EA04	Textiles and textile products
EA05	Leather and leather products
EA06	Wood and wood products
EA07	Pulp, paper and paper products
EA08	Publishing companies
EA09	Printing companies
EA10	Manufacture of coke and refined petroleum products
EA11	Nuclear fuel
EA12	Chemicals, chemical products and fibres
EA13	Pharmaceuticals
EA14	Rubber and plastic products
EA15	Non-metallic mineral products
EA16	Concrete, cement, lime, plaster etc
EA17	Basic metals and fabricated metal products
EA18	Machinery and equipment
EA19	Electrical and optical equipment
EA20	Shipbuilding
EA21	Aerospace
EA22	Other transport equipment
EA23	Manufacturing not elsewhere classified
EA24	Recycling
EA25	Electricity supply
EA26	Gas supply
EA27	Water supply
EA28	Construction
EA29	Wholesale and retail trade; Repair of motor vehicles, motorcycles and personal and household goods
EA30	Hotels and restaurants
EA31	Transport, storage and communication
EA32	Financial intermediation; real estate; renting
EA33	Information technology
EA34	Engineering services
EA35	Other services
EA36	Public administration
EA37	Education
EA38	Health and social work
EA39	Other social services

EA39	850101	850102	850103	108501	108502	920102	920103									

Note: You may notice that, for ISO 45001 and ISO 50001, some EA Codes do not cover any previous codes; this is intentional since, as mentioned above, the mapping process has been implemented in the most simplified way possible to avoid over-coding and auditors' qualified competencies. It should also be pointed out that this guide shall not be used vice versa; meaning that, for new clients, the already available documents are to be used (e.g. [EA codes with NACE division descriptions.pdf](#)). It is crucial that, even though this is ongoing and a part of business as usual, Auditors along with Client Operations will need to confirm by the upcoming visit that clients have indeed been allocated the correct codes.

Old Codes 106002 - 109001

Old Code	Old Code Title	New Code	Additional New Codes		
106002	Agriculture and Fishing - high complexity	EA01			
106101	Mining and Quarrying - low complexity	EA02			
106102	Mining and Quarrying - high complexity	EA02			
106201	Food, Beverages and Tobacco - low complexity	EA03	EA30		
106202	Food, Beverages and Tobacco - high complexity	EA03			
106301	Textiles, Leather and Clothing - low complexity	EA04	EA05		
106401	Wood, Pulp and Paper - low complexity	EA06	EA07		
106501	Printing and Publishing - low complexity	EA08	EA09		
106602	Petroleum products - high complexity	EA10			
106701	Nuclear - low complexity	EA11			
106702	Nuclear - high complexity	EA11			
106801	Chemicals - low complexity	EA12			
106802	Chemicals - high complexity	EA12			
106902	Pharmaceuticals - high complexity	EA13			
107001	Plastics and Rubber - low complexity	EA14
